

**Notice regarding processing payroll through IMIS**

HCM-Payroll module of SAP-ERP has been implemented and functioning well. Now with the start of new Financial Year, there is no requirement of processing payroll through IMIS application. Therefore, now onward all the menu related to payroll processing are being disabled. All the payroll administrators are advised to maintain employees data updated in SAP-ERP only.

However other modules like Mobile Application, Pension, PRO, FTS etc. continue to be in operation for the time being
