CIRCULAR

Sub.: Regarding electrification of Colonies/ township developed by Local authorities.

At present the work of electrification of the colonies developed by JDA/ Housing Boards/ UIT and the other Local bodies are being carried out by them and Discom recovers only supervision charges as per norms from the intending agency. After carrying out necessary works, these schemes are handed over to the Discom and the system is being maintained by the Discom.

In larger public interest, it is decided that the works related to development of electrical network or shifting of lines is to be carried out by the Discom under deposit works for maintaining the requisite quality and standards. Accordingly the work related to development of electrical network and for shifting of electric line in the schemes or townships developed by local authorities shall be carried out by Discom as deposit work for maintaining required quality and standards.

As per prevailing provisions Local authorities may carry out electrification/ shifting work on their own as per prevailing provisions, provided that major items namely Power Transformer, Distribution Transformer, 33 KV/ 11 KV cables, 33 KV & 11 KV breakers, so used will be provided by Discom by recovering cost along with overhead charges as prescribed in Comml.JDP/789.

By Order,
