

No.JdVVNL/MD/CE(HQ)/SE(RA&C)/JU/2018-19/D. 522 Dt. 19.07.18

**CIRCULAR**

**Sub: Norms for electricity connections in Un-electrified areas.**

Norms for release of connections in un-electrified areas were prescribed vide order No. Comml.JDP/784 and further amended vide order No. Comml.JDP/811 & Comml.JDP/876 that in un-electrified areas where developer left the scheme without electrification as per norms prescribed by the Nigam, connection to the individual plot owner may be released by recovering charges as per Order Comml.JDP/784 dated 08.05.2017/ Comml.JDP/811 dated 24.08.2017 or under self finance scheme by recovering cost of 11 KV line and 11/0.4 KV distribution transformer at the option of the consumer.

It has been observed that nearby areas of city/ town are covered under municipal areas. In many fields, developers got approved residential schemes from local bodies and sold the plots to individuals. In some cases the fields are not converted into colonies and still persons are residing in fields and facing problem in getting connection in such situation.

In order to overcome grievance of the residents of the fields falling under municipal areas where plot area could not be calculated for recovering the electrification charges on pro-rata basis of the plot area, following guidelines are hereby prescribed for releasing connections:

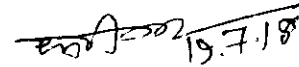

1. Applicant will define plot by proper boundary wall.
2. In case he constructed house without boundary wall, in such cases, plot area shall be considered as 1.5 times of plinth/ constructed/covered area.
3. Minimum plot area shall be considered as 100 Sq. yards or as per point No. 2 above (whichever is higher).
4. The charges as prescribed in order Comml.JDP/784/ Comml.JDP/811 shall be recovered for plot area as calculated above.

*ey*

5. An undertaking may be obtained from the applicant before releasing the connection that no further construction will be carried out by him, if he does so, he will deposit charges, if required, accordingly.
6. In case of Industrial connections upto 15 HP, the connection shall be released from existing system, if technically feasible by recovering charges as per para 1 to 3 above.
7. For industrial connections above 15 HP or where existing system is technically not feasible for connections upto 15 HP and new distribution transformer is to be installed, in such cases the cost of transformer/ sub-station shall be borne by the Nigam whereas the cost of HT/ LT extension, if any shall be borne by the applicant.

All concerned are directed for strict compliance of above directions.

By Order,

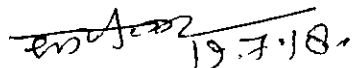

(M.R.MEENA)
