

No. JPD / Chairman Discoms / D. 76

Jaipur Dt:- 17/2/14

Office Order

There is a huge pendency of domestic connections in rural Abadi villages in all 3 Discoms. This pendency also includes such domestic connections which can be released through service line only and no erection of pole & transformer is required. Order already exists for releasing service line connections on priority. It appears that the compliance of those orders is being ignored.

It is, therefore, hereby ordered as under:

1. Domestic connections of rural Abadi villages as well as urban areas in which only service line is required should be released within next two months.
2. The following responsibility levels are fixed:
 - Primarily responsibility - AEn (O&M)
 - Supervisory responsibility - XEn (O&M)
3. The SE of the circle will initiate disciplinary action as per above for non release of domestic connections requiring service line. In future the constant monitoring shall be done by the SE and delay if any in releasing the connections requiring service line, should attract disciplinary action against AEn & XEn.
4. If material is not available, the Circle SE shall be responsible for delivery of adequate material & earmark for this work.
