### ORDER

#### **Sub:- Verification of Commercial / Residential Complexes.**

As per provisions of Clause 7(A) 'Building Complexes' of TCOS – 2004 (Amended upto December, 2007), the meters of individual consumers in the building complex shall be installed in a metering cubical box to be installed at ground floor by the builder/ developer. The metering cubical shall be sealed properly after installation of meters of individual consumers. Also a check meter is installed before metering cubical for the purpose of energy audit.

To ensure proper sealing of meter boxes and to avoid any possibility of theft of energy the field officers are directed that metering panel of all the Commercial/ residential complexes shall be checked periodically in every six months and ensure that the Bus-bars and meter boxes of metering panel are sealed properly. Energy audit of the consumption recorded in main meter and the individual connections meter shall be conducted every month for proper energy accounting and monitoring of T&D losses. Also LT/HT/TVM shall be installed as check meter so as to monitor power factor of the premises, where ordinary whole current meters are installed earlier as check meter, same should be replaced by TVM.

All concerned are directed to ensure compliance of the above directions.

By Order  
  
 (S.S. Mina)
