Sub:- Installation of meters for flat rate consumers.

Time and again guidelines have been prescribed under the Feeder Renovation Programme being taken up in the field on various 11 KV feeders interalia for providing distribution transformer with distribution boxes, provision for installation of meters, MCBs and capacitors. Such transformers are being installed on feeders wherein "Feeder Renovation Programme" have been launched and completed. In addition to 11 KV feeders under Feeder Renovation Programme such distribution transformers are also being installed for the purpose of replacement of existing distribution transformers in other areas likewise.

It has been reported that in some cases either the distribution transformers with distribution boxes having provision for installation of meters are not being installed or in some case even after installation of such transformers, meters for flat rate consumers are not being installed. It is understood that whenever such a distribution transformer is installed on the distribution transformers. After installation of meters reading of such meters is also required to be taken up by the meter readers at the time of visit of the area for taking meter readings. For the purpose of taking meter reading of flat agriculture connections. MRR (A-10) be prepared and kept in respective binders, in route order. Meter reading of such consumers will be taken by the Meter Readers as per Meter reading Programme and will be forwarded by the sub division to the computer agencies with each billing cycle. It should clearly understood by all concerned that billing of such consumers would continue to be as usual and meter reading have introduced for records purposes only.

In case the consumer opts for billing under meters category, such connections be converted to metered category by exercising option for the same. Billing of such consumer is required to be done as per the tariff applicable for metered supply consumers.

It is also pertinent to mention that with the completion of the FRP, the work of installation of meters for all flat rate consumers on distribution

transformers provided with distribution boxes would be completed. In order to achieve this, all out efforts should be made by field officers to ensure to install meter for flat rate consumers take meter reading of such consumers as per programme and forward the same to the billing agency for the purpose of keeping record billing month-wise.

Above instructions should be strictly followed by field officers. Further instructions in this regard would be issued by the Chief Accounts Officer.
