ORDER

Sub:- Provisions of Single Point Electric Supply for residential purpose.

As per provisions of Regulation 6 (9) of RERC (Electricity Supply Code and Connected Matter) Regulation-2004 and its amendments. An application for the single point supply can be made by;

- (a) A registered co-operative Group Housing Society (Housing Society) which owns the premises, for making electricity available to the members of such society residing in the same premises.

Provided, it shall not in any way affect the right of a person residing in the housing unit, sold or leased by such Housing Society, to demand electricity supply directly from the licensee of the area.

- (b) A Person (Employer) for making electricity available to his employees residing in the same premises.

The matter of single point supply for colonies/Housing schemes developed by private builders/Developers/Housing Societies was discussed in 68th Discom's Co-ordination Forum meeting held on 16.03.2016 and it was decided that single point connection for domestic purpose may be allowed to such colonies as per provisions of Regulation 6 (9 &10) of RERC (Electricity Supply Code and Connected Matter) Regulation-2004 and its amendments subject to the following condition:-

- 1) If, any person residing in the housing society desires to take electric connection directly from the Nigam, the same shall be released by the Nigam from the Electrical Network existing in the premises.
- 2) As per provisions of Schedule DS/HT-1 of Tariff for supply of Electricity maximum 5 shops having total aggregate connected load of 10 KW shall be allowed in the township.
- 3) Further NDS connections if required by the residents of township, shall be released by the Discom from the network existing in the premises subject to the condition that the total non domestic load should not exceed 10% of the total sanctioned connected load of the scheme.
- 4) If the NDS load exceeds 10% of the total sanctioned connected load of the scheme then the builder/developer/Housing society shall be required to get electrified the premises separately for Non Domestic load.
- 5) The consumption of all the connections released by the Discom in the township having single point metering shall be deducted from the consumption of single point connection. However the demand in respect of the connections released by Discom from the network of the group housing society shall not be adjusted / reduced from the demand recorded in case of single point connection.
