No. AVVNL/ CE(COMML)/XEN(C-II) /F./2016-17/D. 2476 Ajmer Dated 12-8-16

CIRCULAR

Sub:-Considering the request of consumers for allowing extension of 24 Hrs. supply feeder beyond the prescribed limit of 1 KM in rural areas.

For applicants requiring urban supply the procedure as prescribed vide order No. Comml Aj- 425 dt 24.08.2009 is applicable which stipulates that release of new connections is made for small industrial & non domestic connections by extending urban area feeder, the line cost as well as the cost of 11/0.4 KV transformer is not adjustable in energy bills. In such cases metering is done on 11 KV side & in exceptional cases metering on LT supply may be allowed with the approval of Hon'ble MD/CMD. In such cases 3% transformation losses shall be added to recorded consumption.

The matter discussed in Commercial review meeting held on dated 19.07.2016 and looking to the delay in release of connection for want of approval of Hon'ble MD/CMD for allowing LT metering in such cases, it has been decided that for such connections metering on LT side with addition of 3% transformation losses to the recorded consumption may be allowed by concerned Circle Superintending Engineers on individual merits of the case.

(B. M. Bhamu)

Chief Engineer (Comml.)
