ORDER

Sub:- Procedure for billing of Renewable Energy Generators.

The Clause 90(1) of RERC Tariff Regulation, 2009 prescribes that Energy drawn during start up and backing down up to a maximum of 42 days in a financial year be set off against the energy sale to the distribution licensee within State thereafter, energy drawn be billed at temporary tariff on daily basis. Where sale to distribution licensee is not affected, such drawl be billed on daily basis.

Accordingly, energy drawn upto 42 days in a financial year by renewal energy generator is to be set off against the energy sale to Discoms on regular basis. The energy drawn by a generator beyond 42 days in a financial year is to be billed on daily basis temporary tariff of HT Supply.

It has been observed that the accounting of energy drawn for more than 42 days is not being monitored and maintained properly, due to which some time such generator draws energy for more than 42 days and not billed at temporary tariff at any level.

To streamline the billing of renewable energy generators, following procedure is hereby prescribed.

1. Monthly readings alongwith MRI data shall be taken by M&P Wing of respective Discom wherein RE generator/ generators is/are situated and shall also prepare generator wise abstract on monthly basis showing total energy export/import (sale/drawn) alongwith number of days for which the energy has been supplied/drawn by generator in consultation with the developer. The cumulative number of days for which energy has been drawn by generator in a financial year, shall also be mentioned. This information be sent to SE (RDPPC), AVVNL, Jaipur for billing purpose.
2. The SE (RDPPC) shall prepare bills for energy supply to Discoms after adjusting the energy drawn from Discoms for 42 days. The SE (RDPPC), AVVNL, Jaipur shall be responsible to assess the amount for energy supplied by the Discoms to generator (beyond 42 days) in a financial year at temporary tariff of HT Supply on daily basis. The bills of generator for the energy supplied to the Discoms shall be passed by SE (RDPPC) after due adjustment of the bills so assessed at temporary tariff of HT Supply. The units and amount so adjusted shall be intimated to concerned AEN (O&M), of respective Discom by RDPPC through credit advice for accounting of sale of energy through MS-14.

3. In case generator does not supply energy to the Discoms, or not raises the bill and only draws power from Discoms, then the amount assessed at temporary tariff on daily basis, shall also be intimated to concerned Assistant Engineer (O&M), of respective Discom for raising of bill & recovery of the amount as per provisions of TCOS-2004. The units so consumed beyond 42 days and bills raised at temporary tariff by RDPPC shall be taken in the account by Assistant Engineer (O&M), of respective Discom through MS-14 on monthly basis. The entry of realization shall be made accordingly.
4. The concerned Assistant Engineer (O&M), Ajmer Discom, after recovering the amount shall intimate the same to SE (RDPPC) for cross reference.

The above procedure shall strictly be adhered to and non-compliance will be viewed seriously.
