ORDER

Sub:- Regarding CTL testing charges for distribution transformer to be used by agriculture consumers.

Partial amendment in Agriculture Connection Policy-2017 was made by Chairman, Discoms order No. 428 dated 25.12.2021. An additional provision as point No. 11.2(अ) was inserted in the point No. 11.2 that applicants of बूंद-बूंद/फव्वारा/डिग्गी योजना have been allowed to execute the work of erection of line and installation of distribution transformer at their own level through Nigam's approved vendors/Electrical Inspectorate authorized license holder. Applicant has to arrange and install the required material as per Nigam's standards. However, only distribution transformer required is mandatorily tested in Nigam's Central Testing Lab.

The matter regarding CTL testing charges for distribution transformer to be installed by agriculture consumers was discussed in 73rd Discoms Coordination Forum meeting held on dt. 24.01.2022, wherein the detailed procedure/guidelines were prescribed as detailed hereunder:

1. The prospective applicant who want connection in pursuance to Chairman Discoms order dated 25.12.2021 shall be required to procure the distribution transformer for agriculture connection from Nigam's approved vender as per Nigam's specification. The list of such vendors shall be uploaded on Nigam's website.
2. The applicant shall get the distribution transformer tested at Nigam's CTL/any other independent NABL accredited laboratory at his own level.
3. For getting the transformer tested at Nigam's laboratory, the applicant shall deposit Nigam's CTL prescribed testing fee of Rs. 7000/- (including GST and transportation charges) in the concerned sub-divisional office along with transformer, purchase bill, routine and acceptance test reports from the manufacturer of the transformer, procured by him.
4. The Nigam's approved vender may stock maximum five numbers of Nigam's CTL tested distribution transformers of each capacity to be provided for agriculture connection purpose. However before getting the new lot tested in the CTL, the utilization of the previous lot along-with details of applicant, where the distribution transformer have been utilized, shall be made available to the CTL.

All concerned are directed to ensure strict compliance of the above directions

By Order,

(Er. Rajeev Verma)
Superintending Engineer (Plan)
