- Sub:- Regarding consumer indexing in respect of feeder and distribution transformers in computing feeder wise losses with tempering report analysis of high value consumers.**
- Ref:- 1. This office letter No.497 dt.24.2.2021.
2. Office order No.118 dt.9.3.2021.**

Time and again repeated directions are being issued to complete the work of consumer indexing with respect to 33/11KV S/S, 11KV feeders as well as distribution transformers. This is a mandatory condition of State Government as well as Central Government to avail the various grants under Central/State government schemes/projects. Directions were also issued vide above letter dtd.24.02.21 that concerned XEN(M&P) will be responsible for evaluating the temper analysis of high value consumer pertaining to their jurisdiction and shall furnish a certificate by 10th of each month that temper report furnished by the billing agency of the last month has been examined and necessary report of assessment /action, if any, has been taken care off. Such report be furnished to Director(Technical). It is being observed that both the activities are not being taken seriously by the field officers. Further XEN(O&M) were made responsible for bringing feeder wise AT&C losses within 15% in municipal towns, industrial area/industrial feeder and also made responsible for logical conclusion of VCR in their sub division. The target of AT&C losses of F.Y. 2021-22 is 15% and already been communicated and action plan for its achievement has been circulated vide letter No.JPD/Sr.AO(Billing) /Revenue/F.721/D.227 dt.7.7.2021.

In view of above, it is directed that special vigilance drive be initiated based on feeder wise loss analysis in high losses /theft prone area. Expedite release of all category connections as per time line of Standard of Performance 2021, replacement of defective meters, timely issuance of disconnection notices of outstanding consumers in line with TCOS 2021.

Please note that non compliance of above directions shall be viewed seriously and liable for disciplinary action.
