Subject: Guidelines regarding utilization of old working meters replaced by new Smart Meters under TN-71 & 72.

The Advanced Metering Infrastructure/ Smart Metering system is being implemented in some sub-divisions of Jaipur Discom under IPDS and NSGM schemes of Govt. of India. In this project ordinary single phase and three phase meters are being replaced by Smart meters.

The project has already started in the area of AEN(F-IV) Pratap Nagar, AEN (F-V), Jagatpura, Nigam's Residential Colony under AEN (B-II) sub division of JCC under TN-71 as well as AEN(O&M) Bayana, AEN (A-I), Baran subdivisions under TN-72.

In order to proper utilization of the old working meters which are being removed from site, the following procedure shall be adopted in the field: -

- The AMI implementing agency (M/s Genus) will remove the old meter, install Smart meter and shall deposit these removed meters (along with the complete MCO details as per RMS) in the respective subdivision.
- The AEN(O&M) will deposit these removed meters in meter testing lab within 7 days along with a certificate that MCO compliance of these meters has been done in RMS.
- For sub-divisions of JCC, VKIA meter lab is designated for testing of these removed meters. Other sub-divisions shall deposit these meters in their designated labs as per prevailing practice.
- The AEN (MST) will test these meters on priority and hand over back to subdivision along with the test reports.
- The AEN (O&M) will deposit these tested meters with clear bifurcation of defective meters (GP/BGP) and healthy meters in respective circle store and also intimate to circle SE and CE(MM), JVVNL, Jaipur.
- The respective ACOS shall take these healthy meters and defective meters (GP/BGP) if any, in stock. Healthy meters will be issued for utilization in field and for defective meters (GP/BGP) action be taken as per prevailing practice.
- These meters will be issued in the subdivisions which are not covered under the smart metering project. The CE(MM) will monitor utilization of these meters.
