Jaipur, dated: 26/02/21

The Superintending Engineer (JCC/JPDC/O&M),  
Jaipur Discom,  
Alwar/Baran /Bundi/Dausa /Tonk/Dholpur  
Jaipur/Jhalawar /Kota/SWM/Bharatpur/Karauli.

Sub: Feeder Wise Energy Audit on RMS (Bijliprabandh).

Ref:- This office letter No.JPD/MD/TA/F./D.92 dt.23.02.2021.

Instructions are repeatedly being imparted that 100% on-line energy auditing of all 11 KV feeders is mandatory, for which energy input/drawl is to be taken from on-line monitoring system (FDRMS) developed by M/s Linkwell. But after analyzing the energy audit report of the Month Jan-21 taken from online monitoring system of RMS (Status Enclosed) a lot of discrepancies have been noticed in %T&D losses on the 11KV feeders as under: -

- A. 11 KV Feeders showing T&D Losses negative
- B. 11 KV Feeders showing T&D Losses 0%
- C. 11 KV Feeders showing T&D more than 30%

It appears that either Consumer Indexing/energy input is not proper or there may be theft of energy on these feeders. You are, therefore, directed to look into the matter personally and direct all the concerned officers/officials for feeding the proper energy data in 11 KV feeders and correct the Consumer Indexing so that reliable energy auditing may be done on RMS (Bijli Prabandh).

**Encl: - As Above**

Navin.
