CIRCULAR

Sub: Regarding not charging shunt capacitor surcharge from Agriculture consumers.

As per provisions of Tariff for Supply of Electricity, shunt capacitor surcharge @3% of the billed amount is recoverable from consumers, if the shunt capacitor of KVAR capacity equivalent to 50% of the rated capacity of Motor are not installed or if installed, not in working condition.

Under MMVSY, programme for loss reduction, Discoms are providing shunt capacitors at agriculture connections at consumer end and there is no need to install additional shunt capacitor by the consumer. Therefore it has been decided that henceforth no shunt capacitor surcharge shall be levied on agriculture connections on account of non-installation of shunt capacitor.

By order,

(A.K. Khandelwal)

Chief Engineer (HQ)
