CIRCULAR

Sub: Procedure for release of new Domestic/ Non-domestic connections as well as reconnection of disconnected Domestic/ Non-domestic connections.

As per norms of Nigam, service line for new electricity connection is to be provided by the Nigam to the consumer free of cost. Sometimes due to non-availability of PVC insulated armoured cable in Nigam's store, release of new connections as well as reconnections of disconnected disconnected domestic/ non-domestic connections are getting delayed. To circumvent the problem, in case the Nigam is not able to provide PVC insulated armoured cable for release of new connection/restoration of connections, the following procedure is hereby prescribed till the position of availability of PVC insulated armoured cable improves with the Nigam:

1. New connection as well as restoration of disconnected Domestic/ Non-domestic connections are to be made by using "Twin Core-4 Sq.mm, PVC insulated armoured cable" without fail.
2. For release of new Domestic/ Non-domestic connections as well as restoration of connection, the consumer may provide PVC insulated armoured cable at his own if not available with Nigam.
3. For release of new connection as above, if any consumer is not able to provide PVC insulated armoured cable, the connection to the applicant

who is able to provide PVC insulated armoured cable would be released in overriding priority.

4. The cost of PVC insulated armoured cable so provided by the consumer for the purpose of release of Domestic/ Non-domestic connections or for restoration of disconnected Domestic/Non-domestic connection, would be reimbursed by way of adjustment in forthcoming energy bills @ Rs. 60/- per bill.
5. The cost of "Twin Core-4 Sq.mm, PVC insulated armoured cable" be considered as Rs. 44/- (Fourty four) per meter.

The above instructions shall be strictly complied-with by all the field officers.

By order,

(Anil Gupta)

Superintending Engineer(Comml.)
