

ORDER

Subject: Conversion of flat rate agriculture consumers into metered category in case unauthorized increase in sanctioned connected load detected.

The matter about action to be taken in the case of unauthorized increase in sanctioned load by flat rate agriculture connections was put up before the Coordination Committee in its 114th meeting held on 17.01.08. After discussions, the Coordination Committee decided that on checking/inspection of a flat rate agriculture consumer if it is found that the consumer has increased the sanctioned connected load unauthorisedly, then besides taking action against the consumer under the provisions of "Terms & Conditions for Supply of Electricity" (TCS-04), the flat rate connection shall also be converted into metered supply category by installing new type of Distribution Transformer with Meter and protection Box.
