

ORDER**Sub. : Procedure for release of Small Industrial & Non-Domestic connections in Non-Abadi Areas.**

The applicants for agriculture connections in disguise of delay in getting agriculture connection apply for Small industrial or non-domestic categories in rural non-abadi area. To curtail and discourage such practice, the matter was put-up before the Board of Directors of Jaipur Discorn in its 133rd meeting held on 21-1-08. After consideration by the Board following decisions have been taken :-

- (1) Connections under Small Industrial and Non-domestic categories shall be released in non-abadi areas by initially charging the cost of transformer and line from the consumer.
- (2) Out of above amount, cost of transformer shall be refunded after one year of release of connection through monthly/bimonthly bills up to the amount of the bills, till full cost of transformer is refunded.
- (3) The above provisions are subject to the condition that connections will not be released from the existing transformer. Separate line and transformer will be provided for releasing for each such connections.
- (4) Since the transformer shall exclusively be provided for him, an undertaking in the format enclosed will be obtained from the consumer that safeguard of the transformer shall be his responsibility.
- (5) Only three phase connections are to be released in this scheme in rural areas only, getting supply in block hours.
- (6) In this case if the consumer wants to have 24 hours supply then the same shall be allowed in accordance with the order No. 2124 dt. 01-11-07 (JPR5-432)
