**OFFICE OF THE CHIEF ENGINEER (COMMERCIAL)**

No. JPD/CE(C)/C.I/F.4(388)/D.2176

Dt. 6-10-09

**ORDER**

**Sub: Conversion of overhead lines into under-ground cable in consumer's premises.**

The matter regarding shifting of the overhead lines passing through the premises of consumers supplying power to other consumers of the areas was discussed in the meeting of "Discom Coordination Forum" (DCF) held on 18-9-09. It was decided that in cases where the overhead lines cannot be shifted outside the premises of the consumer due to constraints of space etc., in order to mitigate the problem of shifting in such cases, the overhead lines be made underground by laying underground cable of proper capacity.

In such cases if the consumer provides land free of cost in his premises for laying of underground cable total expenditure shall be borne by the Discom.

By order,

Asstt. Chief Engineer (IT & CRP.)
