**ORDER**

**Sub: Permitting the applicant to provide their own CTPT set if the same are not available with Nigam Stores and recovery of rental charges from such consumers.**

Sometimes there is non-availability of requisite ratio of CT-PT sets in the Stores of the Discom due to which the release of connections to consumers particularly industrial ones gets abnormally delayed. Such situation is not in the interest of the Discom as delay in release of industrial power connections deprives the Discom from early receipt of substantial revenue. More so, this also leads to escalating the grievances of the prospective consumers vis-à-vis existing consumers.

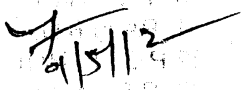

To circumvent such a situation several times instructions were issued in past and recently vide Order No. JPR5-628 dated 5.10.2011 was also issued by allowing the applicants to provide their own CTPT set up to March-2012.

The matter was again placed before the DCF meeting held on 18.4.2012 wherein it was decided that no rental charges are to be recovered against metering equipments i.e. CTs/CTPTs set etc. from the consumers who have provided their own metering equipment.

The Discom Co-ordination Forum also authorized Chairman and Managing Director/ Managing Directors of Discoms to take the appropriate decision for allowing consumers to provide their own CT's/CTPT set etc., in case of non availability with Nigam.

It is enjoined upon all concerned to ensure strict compliance accordingly.

This order is issued in supersession to all previous orders issued in this regard and come into force with immediate effect.

  
(K. K. Purohit)  
Superintending Engineer (Comml.)
