

JAIPUR VIDYUT VITRAN NIGAM LIMITED
(COMMERCIAL WING)

JPR5-136

No. JP-Discom/Dy. CE(C)/SE(C)/F. 4(117) Pt. I/D. 1540 Dt. 15-09-03

ORDER

Sub: To permit industrial consumers for laying of 33 KV/~~11KV~~/
LT lines for release of connections/ extension of loads.

A number of prospective industrial consumers are coming forward for seeking permission of Jaipur Discom for laying 11 KV/LT lines for release of new connection/extension of loads. The matter has been examined and following guidelines are issued in this regard:-

- i) Prospective industrial consumers may be allowed to draw 33 KV/11 KV/LT line through licensed contractors.
- ii) Such consumers are permitted to draw the line up to their premises from the point of tap off of Nigams mains through competent licensed contractors on the same terms and conditions on which the developers of private colonies were allowed to lay the lines for the colonies vide this officer Orders No. JPR5-110 and JPR 5-112.
- iii) The consumers are required to ensure that the standard construction practice are followed and all terms regarding supervision/inspection and testing are strictly followed.
- iv) After completion of the work of electrification, joint inspection certificate shall be prepared by the authorised representative of consumer and the XEn/AEn concerned of Jaipur Discom. The joint inspection report should certify that the electrification work/laying of the line has been done and completed as per norms of Jaipur Discom and thereafter the said line shall be handed over to Jaipur Discom by the consumer and the maintenance of the line shall be the responsibility of Jaipur Discom.
