

JPR5-202

**JAIPUR VIDYUT VITRAN NIGAM LIMITED
OFFICE OF THE CHIEF ENGINEER COMML & PLANNING**

No. JPD/Dy. CE (C&P)/C.I/F.4 (210)/Pt. VI/D. 501 Dt. 5.6.2004

ORDER

**Sub: Replacement of Single phase and three phase
conventional meter by Static meters.**

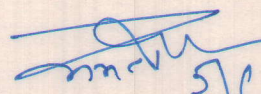

It has been observed that the conventional single phase and three phase meters become slow with the passage of time due to mechanical wear and tear. As a result, the registration of energy is less which consequently result in inflated (T&D) and commercial losses. It was, therefore, proposed to stop repairs of defective conventional meters and replace existing conventional meters only by static meters.

The Coordination Committee in its 70th meeting held on 29-5-04 discussed the proposals and decided as under: -

- (i) Replacement of burnt/defective 3-phase and single phase conventional meters by repaired conventional meters should be stopped.
- (ii) Conventional burnt/defective three phase and single phase meters should be replaced by electronic meters in urban as well as in rural areas.

This order shall come into force with immediate effect.

By order,

(S.C. Malhotra)
