

JAIPUR VIDYUT VITRAN NIGAM LIMITED  
OFFICE OF THE CHIEF ENGINEER COMMERCIAL)

No. JPD/ CE (C)/SE (C)/F.4(210) Pt IV/D. 1660 Dt.25.11.04

ORDER

**Sub : Laying of separate feeder for Industrial and Non- domestic connections situated in Rural Areas for connecting them from continuous supply feeder.**

It has been prescribed vide Nigam's Order No. 1164 dt. 18-7-03 (JPR5-124) that any Industrial and Non Domestic consumers for HT supply voltage situated in rural areas can be given supply through continuous supply feeder provided full cost of the estimate of the line to be drawn in this regard is borne by the consumer. Similarly vide order No. JPR5-128 in the matter of extension of the line beyond RIICO Industrial area for release of connection outside RIICO 's Industrial area, it was interalia prescribed that proposed industrial/Non domestic loads existing in the rural areas outside the limits of RIICO'S industrial area, the extension in existing 11 KV line of the industrial area can be made upto the limits of 1 Km. from periphery of industrial area for distance beyond 1 Km. Further direct 11 KV feeder was prescribed to be drawn for connections, beyond 1 Km. and the supply was to be released on 11 KV with metering on 11 KV side irrespective of the load of the applicant.

It has been reported that difficulties are being experienced in release of connections to such applicants situated in rural areas due to non availability of smaller rating of 11 KV CT PT sets of appropriate rating with Nigam. In order to circumvent this problem it has been decided in the meeting of Senior Officers held on 19-11-04, that in case of appropriate smaller rating 11 KV CT PT sets, will not available the consumer be asked to provide the same and this condition should clearly mentioned in the demand notice to be issued to the applicant. The CT PT sets to be provided by the applicant would, however, be required to be tested in the Meter Testing Lab of the Nigam and found in order prior to installation for release of connection.

The above instructions should be strictly followed by all concerned.
