ORDER

Sub: Adjustment of payment received from consumers- fixing priority thereof.

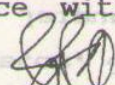

As per the provisions of clause -25 (d) of GCOS any payment made by a consumer is first adjusted towards arrears, if any, included in the bill. Thereafter the balance payments received from the consumer are adopted against current charges. It has been observed that in this way, the delayed payment surcharge is levied on the amount of delayed payment surcharge of the consumer as indicated in the bills which does not seem logical. In order to streamline the method of adjusting the payment made by the consumer against current charges, arrears and DPS etc. the existing clause 25 (d) of the GCOS is hereby amended and the amended clause is reproduced hereunder:-

" Any demand made by a consumer shall first be adjusted against payment bill and No DPS should be levied on DPS". For the purpose the following mode of adjustment of payment received from consumers is prescribed:-

- i) Payment received from consumers be adjusted first towards current monthly /bi-monthly bill/charges. (First against current ED, thereafter again current BD) .
- ii) Thereafter towards arrears in the following manner:-
 - (a) First against DPS of arrears.
 - (b) Then against principal of arrears. (First against arrear ED, thereafter against arrear BD)

If a consumer has been served with a notice alongwith bill for disconnection of supply due to non payment of arrears shown in the bills and he offers to pay only the arrears shown in the bill within the notice period to save disconnection, the same shall be receipted as part payment".

This order shall come in force with immediate effect.
