ORDER

Sub: Insisting for production of No Objection Certificate from Municipality/
Municipal Council at the time of release of connection.

It has been reported that some of the field officers are insisting for production of NOC (No Objection Certificate) as issued by the Municipality / Municipal Council/JDA/UIT for release of non domestic connection specially in respect of new connections of the Petrol Pumps. This practice is causing un-necessary harassment to the prospective consumers. It is, therefore, clarified that the existing provisions under the "Terms and conditions for Supply of Electricity-2004" do not prescribe requirement of such "No Objection Certificates" from prospective consumers. Accordingly it is advised that the production of "No Objection Certificate" from prospective consumers requesting for release of connections for Petrol Pumps etc. should not be insisted upon.

Above instructions should be followed by all field officers strictly.

By order

(R.P. Goyal)

Chief Engineer(Comml.)
