ORDER

Sub.:- Taking monthly meter readings of the consumers by
O&M wing officers.

According to prescribed norms, the monthly meter readings of HT/EHT consumers is to be taken jointly by the concerned officers of (O&M) wing & Meter wing. It has been reported that after installation of latest electronic meters, the readings are furnished through MRIs only and manual readings are not being taken by (O&M) wing officers. This practice is not appreciated.

It is, therefore, reiterated that regular monthly meter readings of HT/EHT consumers to be taken jointly and manual readings i.e. instantaneous readings of parameters should also be noted in the reading register maintained for the purpose. If there is any discrepancy in the data generated through MRI & that of taken manually, the same should be brought to the knowledge of M&P wing immediately by (O&M) wing officers.
