ORDER

Sub : Installation of Single Phase Transformers.

It has been reported that only 16 Nos. domestic/non-domestic connections are proposed on a single phase 16KVA transformers and similarly, only 25 Nos. connections are proposed on a single phase 25KVA transformers, while approving the survey report under Feeder Renovation Programme on Turn-key works. As a result, a large number of single phase transformers are being proposed for providing single phase supply to domestic/non domestic connections.

In order to circumvent, the problem of installing too many distribution transformers, it is hereby enjoined upon all the field officers to release 30 Nos. domestic/non-domestic connections on 16KVA single phase transformers and for more than 30 and upto 50 Nos. domestic/non domestic connections, 25KVA transformers should be proposed under Feeder Renovation Programme and also for releasing new domestic/non-domestic connections. Further, it may also be ensured that no single phase transformer is proposed near existing well as well as for a single, domestic/non-domestic connection.

hmj Compliance of the above instructions should be made by all field officers strictly.
