CIRCULAR

Sub.: Instructions for Circle and Chief Engineer Level Settlement Committee(s) in deciding the cases of Large Industrial consumers.

It has been reported that in many cases, the Circle Level & Chief Engineer Level Settlement Committee(s) are deciding the disputes of Large Industrial consumers, even in absence of a representative of Commercial wing. As a result, some times the settlements reached may not be appropriate & become the matter of criticism.

It is, therefore, enjoined upon all the Settlement Committee(s) that as far as possible and feasible no decision should be taken by the Circle Level & the Chief Engineer Level Settlement Committee(s) in the cases of Large Industrial Consumers, if the representative of Commercial wing is not present in the meeting.

By Order,

(B.L.Agrawal)
Chief Engineer (CP&RE)
