Sub.: Use of 3-Phase Static Meters (10-60 Amps.) for domestic, non-domestic & Small Industrial Category connections having 7.5 KW & above sanctioned connected load.

While reviewing the position of inventory control on 26.5.06, it has been decided that only 3-Phase Static Meters (10-60 Amps.) should be used for Domestic & Non-domestic and Small Industrial category connections having 7.5 KW & above sanctioned connected load.

 Above instructions must be followed strictly.
