**JAIPUR VIDYUT VITRAN NIGAM LIMIKTED
OFFICE OF THE CHIEF ENGINEER(CP&RE)**

NO.JPD/CE(CPRE)/SE(C)/C.I/F.4(210)Pt.IV/D.1784 Dt.17.10.06

CLARIFICATION

Sub : Laying of separate feeder for industrial and non-domestic connections situated in rural areas for connecting them from continuous supply feeders.

Any Industrial or Non-domestic consumers situated in the rural areas, if wants to have direct feeder from Urban area supply for continuous supply, the same can be allowed if the consumer deposits full cost of the estimate of the 11KV line to be drawn in this regard. This facility is prescribed for HT supply consumers situated in the rural areas. In such cases, the transformer is either provided by the consumer or the same is installed by the Nigam and the rent of transformer is recovered as per provisions of TCS-2004.

Presently, the Nigam is receiving distribution transformers with welded meter boxes on the transformers for fixing the meters. Accordingly, these transformers can be installed for releasing pending connections of consumers requiring Urban supply by recovering transformer rent. As these meter boxes are installed on the LT side, the metering of such consumers can be done on LT side and 3% transformation losses added for the purposes of billing.

The above instructions shall come in force with immediate effect.

This bears the approval of Hon'ble CMD, Jaipur Discom.

(N.M. Sareen)
