Dt: 7.12.06

ORDER

Sub.:- Modification in the procedure for release of NDS connections in permanent Wedding Houses.

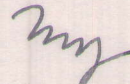

In accordance with the existing provisions for release of NDS connections in permanent Wedding Houses, the distribution transformers are provided outside the premises & cost is borne by Discoms. The metering is provided on LT side and the billing is done on actual consumption basis @1.4 times the tariff for permanent connection under NDS category.

It has been reported that the number of cases of pilferage of electricity by such consumers have increased. The matter was discussed in the "Group meeting of Commercial Wing" held on 25.11.06 and to curb the tendency of pilferage of electricity by such consumers the following decisions have been taken to be implemented on priority :-

1. Henceforth, only HT metering of such connections shall be provided.
2. For the purpose, independent distribution transformers of the Discom be provided for each such connections outside the premises & transformer rent shall be charged.
3. In case the transformer is provided by the consumer himself, no transformer rent shall be charged.
4. However, for such existing connections if some other connections were also released through the same transformer, such connections be arranged to be shifted to other transformer or new transformer be provided for such connection.

Above instructions shall come into force with immediate effect.

By order

(N.M. Sareen)

Chief Engineer (CP & RE)
