ORDER

Sub: To expedite the release of NDS/LT connections to various organizations/Commercial entities requiring large number of connections at various locations (M/s. Bharti Hexacom Ltd., Brand Name "Airel")

In accordance with the existing provisions, 11 KV voltage Regulation (V.R) is required to be worked out for releasing connections under NDS/LT category. Various organisations/Commercial entities requiring large numbers of connections at various locations like M/s. Bharti Hexacom Ltd (Airtel) have represented that release of their connection are generally delayed because of working out 11 KV "Voltage Regulation" (VR) and taking approval of Supdtg. Engineer for further steps for improving the same .

The matter was discussed in 108th meeting of Coordination Committee held on 24-8-07 and it has been approved that in such type of connections the conditions of working out the 11 KV Voltage Regulations be relaxed. However, the filed officers must take adequate steps so as to improve the voltage Regulation at such locations .The connection should be released without waiting for approval for improving Voltage Regulations.

By order,

(B.L. Agarwal)
Chief Engineer (Comml.)
