JAIPUR VIDYUT VITRAN NIGAM LIMITED
OFFICE OF THE CHIEF ENGINEER (COMMERCIAL)

No. JPD/CE(C)/C.I/F.4(372)/D. 2220

Dt. 14.11.07

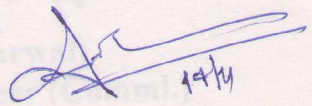

ORDER

Sub.: Action to be taken on detection of a case of shunt resistance provided in LCD Display Meters.

Number of theft cases have been detected in which shunt resistance have been provided in the LCD display meters which can be observed on reduction in the voltage being displayed on the meter.

In the meeting of Executive Engineer of Important Industrial Area held on 27.8.07 it was decided that such cases are to be dealt in a similar manner as being dealt in the cases of the damage of welded transformers and cutting of/damage to AB cable. Therefore if reduced voltage is found on the display of meter, a case of theft of energy and damage to Nigam property should be registered and FIR should invariably be lodged under section 135 & 138 and other provisions of the Electricity Act-2003 may also be strictly followed. While lodging FIR, civil liability as well as criminal offence both should be mentioned.

Supply to such consumer, should be restored only after directions of the Court/ Anti Theft Police Station.

(B.L. Agarwal)
Chief Engineer (Comml.)
