Sub:- Depositing the unserviceable/scrap materials lying with
 O&M sub-divisions.

It has been observed that a huge quantity of unserviceable/scrap materials including BGP failed distribution transformers VCBs, meters & steel items including ACSR conductor etc. are lying with O&M sub-divisions. The field officers are not taking any interest to deposit such items in the circle stores which is causing continuously leakage/pilferage of materials from field. Due to this slackness, the receivable revenues by the sale of scrap through appropriate method of auction is also defeated.

In view of the above, you are advised to instruct the field officers under your control to immediately deposit all kind of unserviceable/scrap materials, off road vehicles etc. in the circle stores and furnish a Certificate in respect of your circle to this office to the effect that "no serviceable/scrap materials are lying undeposited in sub-divisions under the control of this circle", so that the action for disposal of such unserviceable/scrap materials may be initiated by the Superintending Engineer (I&S) and accordingly the higher authorities may be apprised of the progress in respect of your circle.

This may be treated as MOST URGENT.
