ORDER

Sub.: Billing of temporary connections

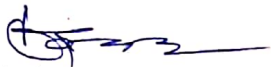

It has been observed that billing of temporary connections is being done through billing software. However, after these temporary connections cease to be in existence, billing is stopped but payment on this account is continued to be made to M/s BCITS. After permanently disconnection of these temporary connections, the billing data is hardly required to be nursed/incubated any more. As such by way of payment to BCITs on this account an avoidable expenditure is being made, which needs to be immediately curbed.

In view of above, all the respective AROs shall ensure that no amount on account of temporary connection if claimed by M/s BCITS is verified from the month subsequent to the last and final bill is issued to the consumer. The circle accounts officer shall also ensure and certify that no amount is being claimed by M/s BCITS after the last and final bill is issued to the consumer.
