## CIRCULAR

It has come to the notice that the Civil wing of Jaipur Discom had undertaken execution of works on the requisition of Circle SEs where not only no adequate budget provision exists but also in cases where even the administrative approval has not been obtained. This defeats the very purpose of the budgetary exercise, which is being openly flouted by the Nigam officers. Action is being taken against such erring officers and further it is enjoined upon the officers of the civil wing that no works in the absence of proper administrative and financial approval are taken in hand. Cases in which circumstances so warrant to take up the work then prior approval of the CMD be first sought keeping in view the net budget provisions.
