Sub:Levy of power factor surcharge and shunt capacitor surcharge.

Dear Sir,

Some of unit officers have made reference to this office for seeking clarification about levy of power factor surcharge and shunt capacitor surcharge in various categories except agriculture category as per tariff.

The matter has been examined and clarified as under :-

1. Revised power factor surcharge is applicable from immediate next billing after expiry of 3 months notice period as already clarified in Circular No. JPR/29 dt.11.7.01. If the notice was given to the consumers in Jun 2001, then same shall be applicable from the billing Month of Oct.2001. For the intervening period the old provisions of power factor surcharge wherever applicable is to be followed.
2. Where to measure power factor, KVAH meters are installed, the shunt capacitor surcharge is not to be levied irrespective of installation of shunt capacitor. In other words, power factor surcharge, if applicable shall only be levied.

It is therefore advised to take action accordingly

Yours faithfully,

(A.K.JAIN)
