

Jaipur Vidyut Vitran Nigam Ltd.

No JVVNL/CAO/E.171/D. 11

Jaipur, January 3, 2002.

The Superintending Engineer(O&M),
Jaipur Vidyut Vitran Nigam Ltd.,

Sub: Applicability of transformer rent and transformation losses.

Various points forwarded to this office for clarification, as a result of issue of Comml. Order No.50 dt.20.11.01, have been examined and clarified as under :-

- i) Transformer rent in respect of old MIP consumers (whose date of connection is prior to 7.8.90) is applicable at the rate as mentioned in Comml. Order No.428. However these concessional rates would not apply to those consumers who have got extended their sanctioned connected load beyond 60 HP on or after 7.8.90.
- ii) 3% transformer losses are not recoverable from such MIP consumers having sanctioned connected load more than 60 HP and connections released before 7.8.90 and supply voltage is on LT side.
- iii) Transformer rent from the MIP consumers whose date of connection is on or after 7.8.90 should have been recovered @ 3% of the cost of transformer and DP structure up to the billing month of Nov.01. From the billing month of Dec.01 rates as prescribed vide Comml. Circular No.50 would be applicable. From all such consumers of various categories, 3% transformation losses are recoverable whose supply and metering equipment is on LT side and connections having contract demand / sanctioned load more than 50 KVA/50 KW.

To implement above decisions all the unit officers are advised to send advice No.3E (in revised format as enclosed - only column No.1 to 5 be filled), so that computer agencies may be in a position to recover transformer rent as well as transformation losses from the consumers, as above. Any debit/credit in implementation of above decision, may be sent through advise CB-4 to the computer agencies.
