10. 482

Dt. 31/7/15

**ORDER 124**

It has been noticed that billing of temporary connections is not being done on regular basis. Many times cases of non - billing of electricity consumed by the temporary consumers are also brought into the notice of management. It has been felt that regular and timely billing of temporary connections is very essential to safeguard the revenue of Discom and reduce the T&D losses. To avoid such type of cases of non billing and irregular billing, it has been decided that following procedure must be followed in the subdivision for billing; and keeping of record of temporary connections:-

1. Whenever consumer applies for temporary connection, it should be ensured to record entry of the same in S-1 register.
2. Necessary Account No. should be allotted at par with Regular Consumers with additional alphabetic tariff code (TP) after numerical tariff code to identify the temporary connection.
3. A separate meter reading binder (A-10) should be maintained in the Sub-Division and monthly meter reading should be recorded for monthly billing of temporary connections.
4. Amount deposited by the consumer at the time of temporary connection should be kept as a security and the same should be adjusted against the final bill.

Above directions should be complied strictly.

This bears approval of the Managing Director, Jodhpur Discom, Jodhpur.

*M.S. Palawat*  
(M.S. PALAWAT)
