### ORDER

**Sub: - Admissibility of mileage allowance on performing journey on tour by own Car by the employees of the Power Sector Companies.**

The issue regarding admissibility of mileage allowance to the employees of <sup>the</sup> Power Sector Companies when the journey is performed on tour by own car under Rule-25 read with Rule-11 of erstwhile RSEB T.A. Rules was placed before the Co-ordination Committee in its 83rd meeting and 85th meeting held on 1.2.7.2005 and 17.8.2005 respectively. On the lines of the Committee's decision, necessary clarification is issued as under: -

1. An employee who performs journey on tour by own car between the places connected by rail, shall be entitled to mileage allowance as admissible for road journey limited to rail mileage allowance unless road mileage allowance is less than the rail mileage allowance. The road mileage allowance shall be calculated as per "Special Rate" mentioned in column 2 of Appendix - 'A' (P-II) of erstwhile RSEB T.A. Rules i.e. @ 3.50 per k.m.

Accordingly, rail mileage allowance (as per entitlement) or road mileage allowance calculated as above, whichever is less, will be paid. The facility of class in rail for which entitlement has been considered must be available on that route.

2. In the above cases, the employee shall also be entitled for toll tax charges, at actuals, subject to production of receipt (s).

3. The employee performing journey by own car shall be required to record the following certificates on the T.A. bill:

- a. The journey has been performed in the interest of Nigam's work.
- b. The propulsion charge has been borne by me.
- c. The fare being argued is lesser of rail mileage allowance as per my entitlement and road mileage allowance.
- d. The facility of class in rail for which I am entitled is available on the route traveled".
