

**JODHPUR VIDYUT VITRAN NIGAM LIMITED**

No.JdVVNL/MD/CE(HQ)/SE(RA&amp;C)/JU/2010-11/D. 1265 Dt. 02.08.10

**ORDER****Sub: Amendments in "Terms & Conditions for Supply of Electricity - 2004".**

The Rajasthan Electricity Regulatory Commission has issued an order dtd.19.02.10 in the matter of amendment in "RERC (Electricity Supply Code & Connected Matters) Regulations - 2004" (Ninth amendment) and notified the same on dtd. 22.03.10. Consequent upon, amendments in corresponding clauses of the "Terms & Conditions for Supply of Electricity-2004", are hereby issued :-

1. **These amendments shall come into force with immediate effect.**

Under Part-I denoting "Terms & Conditions for Supply of Electricity-2004", following amendments are issued:

2. Note - (i) & (ii) under clause - 2 "Category of consumers & character of service" shall be substituted by the following, namely;

- (i) **If any existing connection is at variance from table above it shall be changed at consumer's request. However, if a consumer availing LT supply but falling in the category of HT supply or an HT consumer but falling in EHT category, does not tender request, the Nigam may change the character of service wherever feasible after serving a notice of not less than 60 days to the consumer to provide transformer sub-station and allied accessories for taking supply at prescribed voltage, at his cost, failing which the Nigam itself may install transformer at the premises of the consumer and charge the transformer rent as per item4(2) of Part-II.**
- (iii) **The consumer, under Large Industrial Service, having connected load above 150 HP (112 KW), may keep his contract demand, even below 125 KVA. Similarly, other categories of consumers having HT supply, may keep their contract demand even below 50 KVA.**

3. Sub-Clauses – 1 of Clause – 4 denoting “Application for Supply” shall be substituted by the following, namely;

**(4) Application for Supply:**

- (1) An owner or an occupier of any premises requiring supply of electricity may apply for supplying electricity to such premises to concerned sub-divisional office. The application shall be in the Form-I. However the form shall also be applicable for other miscellaneous activities viz. load extension/reduction, transfer/shifting of connections etc.

4. Sub-Clause – (A) “Building complex” of Clause-7 shall be substituted by the following, namely;

**7(A) Building Complex:**

- 1) In case of Building Complex/Large Building, if the maximum demand calculated on the basis of covered area as per calculation given below is more than 50 KVA then the owner/builder/ developer/ group of consumers is required to install transformer and its associated equipments within the Building Complex/Large Building of appropriate capacity :-

S. No	Type of Building Complex/Large Building	Connected load per 1000 sq ft of covered area #	Designed Maximum Demand
1	Domestic	8 kW	50% of total connected Load
2	Non- Domestic	10 kW	50% of total connected Load

#Covered area on all floors of such Building Complex/Large Building as per approved plan or actually constructed, whichever is more.

- 2) The owner/builder/developer/group of consumers is required to carry out the following works :-
- (i) Laying of HT cable from terminating pole near the Building Complex/Large Building to the transformer.
  - (ii) Installation of transformer sub-station within the

premises.

- (iii) Laying of LT cable upto the bus bar/metering cubical and all associated works.
  - (iv) The Nigam shall recover supervision charges as per applicable rate. However, if owner/builder/developer/group of consumers is unable to undertake the work at his own, he may request the Nigam for getting work executed on his behalf on payment basis.
- 3) The Laying of overhead HT line from the nearest existing mains to the Building Complex/Large Building shall be undertaken as a deposit work by Nigam at consumer's cost.
- 4) The capacity of HT cable/overhead line, distribution transformer & the LT cable connecting the transformer to the meter cubical etc. shall be designed for 30% higher demand than the designed maximum demand.

**NOTE:**

- i. For the purpose of arriving at the voltage of supply to Building Complex/Large Buildings, the designed maximum demand shall be considered.
  - ii. Above provisions are not applicable for electrification of colonies.
- 5) If the designed maximum demand of the Building Complex/Large Building as calculated above, is below 50 KVA, then the connections to individual owner/occupant shall be released through Nigam's transformer as is released to other normal consumers. In that case the owner/builder/ developer/group of consumer shall provide at their own cost cubical with panel for fixing meters on the ground floor of the Building Complex/Large Building & shall pay supervision charges towards this work.
- 6) The maintenance of Infrastructure provided for electrification by the owner/builder/developer/group of consumer shall be done by themselves. However, maintenance of overhead and underground line up to the terminating point shall be done by the Nigam.

- 7) In case more than one consumer in a Building Complex require HT connections, instead of providing individual transformers, they may, in their own interest, provide jointly, complete infrastructure for electrification from HT supply point up to metering point of individual consumers by installing only one transformer of appropriate capacity not less than arithmetic sum of their contract demands. However, for billing and other purposes, the consumers shall be treated individually.
- 8) In case there is no space available in the old Building Complex/Large Building built prior to 31.12.1996, having at least one connection, Nigam may allow to install the transformer outside or himself provide and may charge estimated cost plus 50% of the estimated cost of transformer sub-station & Double Pole Structure as onetime payment towards maintenance of the transformer installation and sub-station by the Nigam. However, in cases where the space for installation of transformer is neither available within the Building Complex/Large Building nor outside the premises and augmentation of transformer is required, then the Nigam may charge estimated cost plus 50% of cost of additional transformer capacity required for catering the demand/load of the Building Complex/Large Building, as onetime payment towards its installation and maintenance.
5. The existing part – 6 to part - 10 of Clause-7 shall be renumbered as part – 9 to part - 13.
6. Sub-Clauses – (1) & (5) of Clause – 11 denoting “Release of more than one Industrial/Non-domestic connections in the same premises” shall be substituted by the following, namely;
- (11) Release of more than one Industrial/Non-domestic connections in the same premises
- (1) More than one industrial/non-domestic connection in the same premises and in the same name shall not be allowed. Two Connections in a premise can only be allowed if these are physically & electrically separated.
- (5) If a consumer, required to install a transformer, is unable to install the same, the Nigam, on request of the consumer and on

the merit of the case, may provide the transformer and charge rent as per item 4(2) of Part-II. Necessary metering arrangements shall be as per applicable regulations and tariff.

7. Sub-Clause – (1) of Clause – 14 denoting “Agreement and agreement-period” shall be substituted by the following, namely;

**(1) An Industrial consumer having connected load above 150 HP (112 kW) or contract demand above 125 KVA, shall be required to execute an agreement with the Nigam as per Form - II on a non judicial stamp paper, of value as prescribed by the Government of Rajasthan (presently Rs. 10/-). Other consumers shall not be required to execute such agreement and the application in form -I or III itself, as the case may be, shall form the agreement. The date of release of connection shall be the date of commencement of agreement, in both the cases. Minimum period for such agreement will be one year.**

8. Clause – 17 denoting “Security for electric meter” shall be substituted by the following, namely;

**(17) Security for electric meter:**

**The consumer has an option to provide his own meter as per RERC(Metering) Regulations, 2007. The security amount in respect of a meter, when provided by the Nigam, shall be as per item 3(2) of Part-II.**

9. Clause – 23 denoting “Exemption from payment of security” shall be substituted by the following, namely;

**23 Exemption from payment of security**

**The State & Central Govt. Department(s), including Railways and the employees/ex employees of all the Vidyut Nigams/RSEB who have completed 5 years of service and requiring connection for their residential use are exempted from payment of Security Deposit, after obtaining an undertaking from them. However, all public sector undertakings & local bodies shall deposit the Security amount.**

10. Sub-Clause (1) of the Clause – 28 denoting “Defective meters” shall be substituted by the following, namely;

**(28) Defective Meters**

**(1) In case the consumer or the Nigam suspect a meter not functioning properly, a notice can be given to the other party. The accuracy of the meter shall be tested by the Nigam on site or in its testing laboratory. In case the consumer so desires, he may get the testing done at laboratories designated for the purpose by the commission.**

11. Sub-Clause (1) & (3) of the Clause – 36 denoting “Payment of bills” shall be substituted by the following, namely;

**(36) Payments of bills**

**(1) All the bills for electricity charges may be paid within fifteen days from the date of issue at the concerned sub-divisional office of the Nigam or other collection centers authorized by the Nigam as notified through local newspapers/printed on the bills; either in cash or by pay order/bank draft/banker's cheque or a cheque drawn on a local branch of Bank. The Nigam may also receive payment by credit card or Electronic Clearing System. However, for PHED connections, the grace period shall be nineteen days instead of fifteen days.**

**(3) As per billing cycle if payment is required to be made fortnightly, then two bills would be issued to the consumer. One bill would be for consumption made during the first fortnight of the month of issue of bill, which would be on provisional basis equal to half of the previous month's consumption, issued on or after 15th day of the month and its payment shall fall 15 days from the date of issue of the bill. Second bill would be issued on the basis of recorded consumption of the preceding month minus the payment made towards first bill. Second bill would be payable within 15 days from the date of its issue.**

12. Clause – 41 denoting “Laying of separate feeder” shall be substituted by the following, namely;

**Consumers other than Agriculture consumers situated in Rural Area(s) and requiring HT supply can be given supply through continuous supply feeders from nearest technical feasible point, provided the full cost of line to be drawn is borne by the consumer. Provided that a dedicated feeder which emanates from Nigam’s substation to the consumer’s premises and its full cost has been borne by the consumer, shall not be tapped by the Nigam for release of another connection for first four years from the date of release of connection, unless the consumer, who has borne the cost, gives his consent.**

13. Part(i) of sub-clause 2 of the Clause-54 denoting “Temporary supply” shall be substituted by the following, namely;

**(54) Temporary supply**

**2(i) For construction of a building where the period of construction is more than one year and if the applicant desires to take permanent connection, then permanent connection under respective category could be released. However the existing consumers under LT domestic & non-domestic categories may use supply upto 25% of his sanctioned connected load for further construction purposes, from its permanent connection. This facility shall not be available for construction of Building Complexes and to other categories of consumers.**

Under Part-II denoting “Scale of Miscellaneous Charges”, following amendments are issued:

14. The item No.10 “Attendance of fuse man” shall be substituted by the following, namely;

**(10) Attendance of fuse man**

<b>Charges for attendance of fuse man at consumer's premises during any function (Maximum 6 Hours.)</b>	<b>Rs. 250/-</b>
---	------------------

15. The item No.14 "Charges for duplicate bill" shall be substituted by the following, namely;

**(14) Charges for duplicate bill**

Category of Consumers	Charges
(a) Duplicate copy of bill for LT supply consumers.	Free for domestic consumers having LT single phase supply. Others:Rs. 5/- per copy
(b) Duplicate copy of bill for HT/EHT supply consumers & consumers whose system of supply is HT/EHT.	Rs.20/- per copy

16. The Modal Form (Form-I) "Application form for new connection and miscellaneous activities viz load extension/reduction, transfer/shifting of connection etc." is enclosed as "Annexure-A".
17. In the Form-II "Agreement for Large Industrial consumer", the existing point No.5 is numbered as point No.6 and the point No.5 is inserted as under:

**(5) If the consumer opts for open access then the contract for open access shall be governed by relevant regulations.**

Encl: Annexure-A(Form-I)
