**CIRCULAR**

**Sub: Adequate publicity of scheduled outage period.**

Time and again it has been observed that adequate publicity of scheduled outage period(Planned Shut Down) is not being made timely and due to the reason the consumers face inconveniency. The directions in this regard had been issued vide Comml.JDP/326 D.411 dtd.10-05-2006 but probably due to passes of time the order has lost its effectiveness.

It is hereby again reiterated that as and when any planned shut-down is proposed, period of interruption should be specified well in advance (preferably one day) by public notice through newspapers i.e. if a shut-down is planned for say 15<sup>th</sup> of the month, then the information about shut down should be published on or before 14<sup>th</sup> of the month.

Above directions should be strictly followed by all the field officers.

By order,
