ORDER

Sub: Release of large number of connections under NDS category to various mobile tower companies/commercial entities.

The matter of releasing large number of electric connections to various mobile tower companies was discussed in 58th DCF meeting held on 29.01.2014. To resolve the difficulties of mobile tower companies in getting electric connection, it was decided that in cases where mobile tower companies require large number of power connections under NDS category at different locations in the area of Discom, the following procedure be adopted for release of connections expeditiously:-

1. The Mobile tower company shall deposit the application form along with Rs.20,000/- per connection for Urban Area and Rs.1 lac per connection for rural areas as interest free advance in the office of the concerned Assistant Engineer.
2. The Assistant Engineer would be competent to accord technical & financial sanction for such connection.
3. The demand notice shall be issued as per priority. However the demand notice shall deemed as deposited on the date of issue of Demand Notice, as advance amount is already available with the Discom and Sundry Job Order/Service Connection Order be issued on the day of issue of demand notice as the case may be.
4. The application form may be accepted for power connections upto 5KW load on single phase or three phase supply as per choice of the applicant.
5. In case the cost involved while releasing individual connection is more than the advance deposited amount, the difference will be recovered by the respective field officers from the applicants. Whereas if the cost involved in releasing individual connection is less than the advance deposited amount, the difference amount will be adjusted in consumers account.

By Order,

(P.S.SEKHAWAT)**ADDL. CHIEF ENGINEER (C&P)
