Sub: Applicability of domestic tariff on the consumption of electricity in the Hostels attached to Hospitals etc.

The issue of applying domestic tariff on the consumption of electricity in the Hostels attached to Hospitals etc. was raised by some of the field officers.

In this connection, it is to state that in accordance with the provisions of Tariff for Supply of Electricity-2001, the residential colonies, quarters, hostels etc. attached to any type of establishments are covered under Domestic Service (Schedule DS/LT-1). This provision is, however, subject to the condition that there should be bonafide domestic use only and separate connection is taken under domestic category.

In view of the above provisions, it is enjoined upon all the concerned field officers that whenever the Incharge of the Hospitals apply for domestic connection for their hostels, immediate steps should be taken for preparing the estimates, issuing demand notices etc. After the amount of demand notice is deposited alongwith completion of other required formalities like submission of L-Form, depositing security deposit etc. by the applicant, the connection should be released expeditiously. It should, however, be ensured that load other than purely domestic is segregated from the proposed connection under Domestic Category.
