D. 1378 dt. 18-9-03

ORDER

Sub:- Dispensing with the facility of depositing 50% amount of transformer back - up charges in 12 equal monthly instalments.

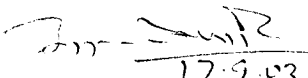

In accordance with the existing provisions, a sum of Rs. 250 per KVA/KW of sanctioned contract demand/connected load is being recovered against the transformer back - up charges. Consumers were also allowed the facility of depositing 50% of the recoverable amount i.e. Rs. 125 per KVA/KW before release of connection and the balance 50% amount was allowed to be recovered in 12 equal monthly instalment after release of connection. This amount of transformer back-up charges was refundable through adjustment in the monthly energy bills which was to commence after the consumer had deposited entire amount @ Rs. 250 per KVA/KW of back -up transformer charges (total transformer back - up charges.)

The erstwhile Board however, reviewed this position and revised instructions were issued vide order No. Comml. 524 dt. 10/07/2000. According to these instructions the practice of refund of transformer back-up charges in energy bills was dispensed with.

The whole matter was put-up for consideration in the coordination committee in its 60th meeting held on 7-08-03. In view of the precarious financial condition of Discom, it has been decided that henceforth the facility of depositing 50% amount of transformer back-up charges in 12 equal monthly instalment shall stand withdrawn.

It is, therefore, enjoined upon all concerned that henceforth non-refundable amount of transformer back-up charges @ 250 per KVA/KW be recovered in one stroke from prospective consumers at the time of release of connection/extension in contract demand or connected load.

By Order,
