No.JdVVNL/C&MD/CE(CPM)/SE(RA&C)/JU/2006-07/D 223 / Dt. 4/10/12

ORDER

Sub : Recording the readings of Check Meters alongwith other meters provided for other individual connections in "Building Complex".

In order to watch the incidence of theft of electricity in large building, it has been decided to install a Check Meter on LT Side of the transformer installed for the "Building Complex". It has also been decided that in the meter reading binder, an extra leaf for every "Building Complex" should be provided for taking the readings of the check meter. However, the readings of the check meter is not for billing purposes but it is required to be compared with the record of energy recorded in the various meters of individual connections.

The basic purpose of installation of check meter is to monitor consumption for ensuring that check meters reading is not more than sum total of energy recorded for individual connection, if there is any incidence of theft of electricity.

By Order,

(A.M. LODHA)**CHIEF ENGINEER(CPM)****JODHPUR DISCOM:JODHPUR****Copy Submitted/ forwarded to the following for information and necessary action:**
