ORDER

Sub : Multiplying Factor be also mentioned in words apart from numerical number, in joint inspection Report.

It has been observed that while preparing joint inspection report by Meter Wing, the multiplying factor is some times mentioned in numerical numbers only. At times the multiplying factor written in number form is not legible/clear and, therefore, there are chances of issuing wrong bills.

To curb the chances of issuing wrong bills, it has been decided that in future the multiplying factor must be written in the numerical form as well as in words so that chances of issuing bills on the basis of wrong multiplying factor are ruled out. Failing to comply with these instructions, disciplinary action would be initiated against defaulting officers.

By order,
