ORDER

Sub: "Voluntary Disclosure of Connected Load Scheme" for all categories of consumers except Agriculture category('Vdcls')

A "Voluntary Disclosure of Connected Load Scheme"('Vdcls') was introduced in past for Non-Domestic, Small and Medium Industrial and Mixed Load categories of consumers for declaring their un-authorized extension in load suo-moto by depositing @ Rs.500.00 per KW(Rs.250.00 as Security Deposit and Rs.250.00 as Transformer Back-up Charges), in the concerned office of the Asstt.Engineer, R.S.E.R./Jodhpur Vidyut Vitran Nigam Ltd. This scheme was extended from time to time upto 15th June, 1997 and re-introduced in the month of May, 1998 and extended upto 30-09-98. Such scheme was introduced to save the consumers from levy of load surcharge for un-authorized connected load in terms of provisions of General Conditions of Supply, in case their connected load is subsequently checked by the Board's Officers/Nigam Officers.

The response to this scheme was observed to be quite encouraging. Many representations have now been received from different corners this year also, requesting for re-introduction of the said scheme ('Vdcls')

The matter has been considered again and it has been decided to introduce this scheme once again for all categories of consumers except Agriculture category for which separate Orders under Commercial-44 dt.12-06-2001 have already been issued. The following instructions/guidelines are issued for the field officers and the consumers as well:

1. The consumer shall first clear total outstanding dues of the Nigam
2. The consumer shall produce a test report of actual total connected load(Fresh L-Forms of licensed electrical contractor)
3. The consumer shall apply in the office of the concerned Assistant Engineer in the prescribed "Application/Requisition Form" alongwith a sum of Rs.500.00 per KW of desired extension in connected load(Rs.250.00 as Security Deposit and Rs.250.00 as Transformer Back-up Charges) To illustrate, if an extension of 05 KW load is required, a sum of Rs.500.00x5=Rs.2,500.00 should be deposited with the application form.

In respect of above scheme, it is also clarified that if the contract demand/connected load after extension falls in the category where the transformer is required to be installed-necessarily by the consumer to obtain supply at 11KV i.e. in accordance with character of supply defined under Tariff-2001, then apart from depositing Rs.500.00 per KW, they will have to provide their own transformer and shall also be required to bear the cost of HT extension, if any, as per rules.

The above scheme of "Voluntary Disclosure of Connected Load Scheme (Vdcls)" shall remain available upto 30th June, 2001.

(O.P. SObTI)
