

No.JdVVNL/MD/CE(HQ)/SE(RA&C)/JU/2017-18/D. 1762 Dt. 26.03.18

ORDER

Sub.: Regarding providing of single phase connections to NDS and SIP category in scattered area upto 10 KW sanctioned/ connected load.

The Rajasthan Electricity Regulatory Commission has issued orders dtd. 09.08.2017 and dtd.30.08.17 regarding amendment in RERC (Supply Code & Connected matters- Eleventh amendment) Regulation-2017 that in scattered area single phase connections to NDS and SIP category may be released upto 10 KW sanctioned/ connected load on the request of the applicant subject to providing of AMR system as per guidelines issued by the Discom in this regard along with cost of electric network including sub-station by the applicant himself, in compliance of which an order Comml.JDP/853 dt. 21.02.2018 issued.

It has been reported that existing three phase consumers in rural areas are applying for load reduction/ change of voltage level from three phase to single phase having load upto 10 KW under NDS/ SIP category. It is clarified that in such cases, estimate shall be prepared by charging full cost of single phase transformer including overhead charges as per Comml.JDP/789. The 50% cost of three phase transformer to be removed may be credited in the estimated cost, if the cost of three phase transformer recovered earlier from the consumer.

Other terms and conditions of the Order Comml.JDP/853 and Comml.JDP/861 will remain the same.

By Order,

 (M.R. MEENA) 26.3.18
