II/D. 2849 dated 31.10.1995 (Comml-100). In this reference, directions are hereby issued for the units to be charged in such cases should be based on the following formula:

Sr. No.	Types of Fixtures	Total Watts of lamp found = W Total units/ month = No. of points X W X10 Hrs X 30 Days	Amount worked out as per present tariff in force

It has been noticed that due to overloading, many times meters are burnt or stop working, in such cases also the above formula for charging should be applied.
