Sub: Preparation of estimates for new connections.

Instructions were issued vide Commercial Circular No.RSEB/DCO/C1/F-4(117)Pt.IV/D.1342 (COMML-152) dated 01-05-96 that the work of laying of lines etc. may be taken up as soon as consumers deposit the amount of Demand Notice without waiting for submission of L-Form by them. Instances have come to notice where LT lines were laid on deposit of the amount of Demand Notice by a prospective consumer, but the connection was not released due to non-submission of L-Form by such consumer, and meanwhile, the benefit of such existing LT line was given to a subsequent prospective consumer while preparing the estimate for release of his connection due to which the Nigam has been put to financial loss.

In order to avoid such irregularities, it has been decided that until & unless the connection is actually released on a line drawn after deposit of the amount of Demand Notice by a prospective consumer, such line may not be treated as existing line while preparing the estimates for release of new connection to the subsequent prospective consumers. However, if the connection of the original prospective consumer is subsequently released, then the estimate of the second consumer may be revised with the permission of the competent authority.

This will come into force with immediate effect.
